downloading lab 15 example game programs from the posted playlist

Hi,

I just viewed the first lab 15 posted playlist video of a game. I know they said to download the code from some of these even if you have not yet implemented one yourself. However, I did not see how you do that from the posted playlist. Please let me know if there is a way to do this since I thought that is what was stated in the course info. page.

Thank you!

Karen
