In this video we introduce a problem we will solve with and without the microcontroller.

VIDEO 8.0 PROBLEM STATEMENT: ANALOG AND DIGITAL NOT LOGIC

Help

DR. RAMESH YERRABALLI: So, Jon, what are we going to do learn today?

DR. JONATHAN VALVANO: We will build a system where a switch controls a light.

DR. RAMESH YERRABALLI: Aha.

So we can build an analog solution and a digital solution to the same problem.

DR. JONATHAN VALVANO: Yes.

Which one would you like to build?
